How to check your vest

1. Lay the vest flat, back up.
2. Measure seam to seam where the top rocker sits. Rockers should be at least 1 in narrower.
3. Measure from below the collar to 2 in above the hem. The whole set, with gaps, must fit in that height.
4. Tape paper cutouts on the vest before you order.

There is no official standard. Every club sets its own sizes. Match what your members already wear.
